

**CORE
OUTCOME:**

Fill weekly webinars, convert qualified attendees into calls, and push warm leads into monthly bootcamps.

Core Revenue Pipeline

EXECUTIVE SUMMARY

Randy Wimmer has built decades of credibility in the federal contracting space — an 8-figure exit, \$1B+ in awards led, and a mission to help the next generation of GovCon founders break in. This proposal outlines a **6-Agent Automation Infrastructure** — a fully integrated, system-driven revenue engine to generate consistent, scalable monthly revenue from ISO certification packages (\$20K–\$24K).

Client	Randy Wimmer — Government Contracting Academy / ISO Certification Group
Service Provider	BrndGuru — brndguruofficial@gmail.com
Offer	ISO 9001 Certification Packages (\$20,000–\$24,000)
Target Audience	GovCon small businesses — 1–50 employees, 0–5 contract awards
Delivery	3 months — 2 agents per month (phased rollout)

THE 6-AGENT SYSTEM

**AGENT
1**

WEBINAR FUNNEL AGENT
Event Engine — Core | MONTH 1

The conversion core of the entire system. Every channel drives traffic here first.

- Landing page creation (registration-optimized)
- Registration form & lead capture
- Confirmation email + calendar add automation
- Reminder sequence (T-24hr, T-3hr, T-15min)
- Pre-webinar nurture sequence

- Webinar delivery infrastructure (GoHighLevel + Zoom integration)
- Replay delivery automation for no-shows
- No-show recovery sequence
- Post-webinar follow-up (call booking CTA)
- Workshop / Bootcamp upsell sequence

Goal: Maximize registrations, attendance rate, and call bookings from every webinar.

AGENT 2

PAID ACQUISITION OPTIMIZATION AGENT

Demand Engine | MONTH 1

Drives paid traffic into the webinar funnel. Scales what works, cuts what doesn't.

- LinkedIn Ads account setup & campaign structure
- Audience targeting (ICP-matched GovCon founders, 1–50 employees, SAM.gov registered)
- Creative testing (3–5 ad variations per campaign)
- CPL (Cost per Lead) & CPA (Cost per Acquisition) tracking setup
- Cost per registrant / attendee / qualified booking monitoring
- Weekly campaign optimization
- Retargeting campaigns (website visitors, webinar no-shows)
- Lookalike audience creation from existing list
- Attribution & reporting (source tracking across all touchpoints)

Goal: Lower cost per qualified webinar attendee and scale registered volume profitably.

AGENT 3

LINKEDIN CONTENT AUTHORITY AGENT

Authority Engine | MONTH 2

Builds Randy's organic presence and keeps the audience warm between webinars.

- Founder profile posts (3–5/week, authority-building content)
- Company page posts (Government Contracting Academy + ISO Certification Group)
- Webinar promotion posts (every webinar cycle)
- Authority / thought leadership content (ISO, GovCon strategy, market insights)
- Social proof / case study posts (client results, contract wins)
- Reels / short-form video snippets (repurposed from webinar recordings)
- Newsletter content (The GovCon Times + The Good Enough Entrepreneur)
- Bootcamp promotion posts (monthly)
- Content calendar automation (scheduled, consistent posting)

Goal: Build authority, trust, and organic visibility that drives inbound webinar registrations.

AGENT 4

LINKEDIN RELATIONSHIP ACTIVATION + AI REPLY SYSTEM

Relationship Engine | MONTH 2

Activates Randy's 21K+ existing LinkedIn network, runs a structured new connection engine targeting high-intent GovCon decision makers, and deploys an AI-assisted reply system to detect buying signals and escalate warm leads to the booking funnel — fast.

A. Existing Network Reactivation

- Reconnect with 21K+ existing connections via structured, segmented outreach sequences
- Segment and identify warm leads (ISO-interested, GovCon founders, active bidders)
- Invite high-fit connections to upcoming webinars (personalized, not broadcast)
- Move engaged contacts into GHL nurture pipeline automatically

B. New Connection Growth Engine (HeyReach-Powered)

- Target ICP: Compliance leaders, AI Governance, ISO-interested, Security & Risk professionals
- Decision makers at target GovCon companies (CEO, Founder, BD Director, COO)
- 300–500 new targeted connection requests/month via HeyReach automation
- High-intent connection strategy — value-first messaging, no cold pitching

C. AI Reply Assist (Human-in-the-Loop)

- Detect buying intent signals in inbound DM replies (ISO questions, pricing enquiries, call requests)
- Detect webinar interest in conversations and auto-route to registration funnel
- AI-drafted reply suggestions via Claude — human reviews and sends (not full autopilot)
- Escalate hot leads to Randy's Calendly booking link immediately upon intent detection

Goal: Activate relationships at scale and book more webinars through structured, personalized LinkedIn outreach.

AGENT 5

EMAIL INTENT & NURTURE ENGINE

Intent Engine | MONTH 3

Automates the full email pipeline — from webinar reminders to post-call follow-up — ensuring every lead is nurtured until they book or buy.

- Webinar reminder sequences — T-24hr, T-3hr, T-15min (automated inside GHL)
- Pre-webinar nurture (value-building emails before each session)
- Replay delivery automation (sent to no-shows within 1 hour of webinar end)
- No-show recovery sequence (3-step re-engagement to rebook missed attendees)
- Post-webinar follow-up (multi-step sequence pushing attendees to book a 1:1 call)
- Bootcamp / offer upsell sequences (push warm leads to monthly bootcamp enrollment)
- Reactivation campaigns (dormant registrant segments — 30/60/90-day re-engagement)
- Intent scoring & segmentation (auto-tag leads by engagement: hot / warm / cold)
- GHL pipeline automation (move leads between stages based on email actions)

Goal: Nurture, re-engage, and convert attendees and list members into qualified sales calls.

AGENT 6

REVENUE CONTROL TOWER DASHBOARD

Control Tower | MONTH 1

Full visibility across every touchpoint. One dashboard to see what's working, what's not, and where to scale.

- Ad spend & performance tracking
- Registration volume by source
- Attendance & no-show rates
- Booked calls (total + by source)
- Qualified leads, proposals, wins & revenue
- Source attribution (LinkedIn, Email, Ads, Organic)
- LinkedIn outreach & content performance stats
- Pipeline value & revenue forecast

Goal: Full visibility, insights, and revenue performance control across all channels.

TOOLS & TECHNOLOGY STACK

The following platforms power the 6-agent system. Each tool is purpose-selected for reliability, GovCon-market fit, and cost efficiency.

Category	Tool	Role & Function	Used In	Notes
CRM & Automation	GoHighLevel (GHL)	CRM, pipeline management, funnel builder, landing pages, calendar integration	Agents 1, 5, 6	Already subscribed — \$97/month
Email Infrastructure	GHL Email	Transactional & marketing email delivery, webinar reminders, nurture sequences, reactivation campaigns	Agents 1, 5	Configured inside GHL — no extra cost
Webinar Platform	Zoom Webinars	Live webinar hosting, attendance tracking, Q&A, recording & replay delivery	Agent 1	Existing subscription
LinkedIn — Pages	LinkedIn (Organic)	Founder profile, company pages (GCA, ICG), newsletter publishing, scheduled content posting	Agents 3, 4	Existing accounts — no extra cost
LinkedIn — Ads	LinkedIn Campaign Mgr	Paid acquisition campaigns, audience targeting, retargeting, lookalike audiences, CPL/CPA tracking	Agent 2	Ad budget billed separately (\$500–\$1,500/month)
LinkedIn — Outreach	HeyReach	LinkedIn connection automation — up to 500 targeted connection requests/month with follow-up sequences	Agent 4	~\$39/month (with coupon)
AI Automation	Claude AI	Content drafting, DM reply assist, sequence optimization, intent detection (human-in-the-loop)	Agents 3, 4, 5	\$100/month (included in agency fee)

Automation Engine	n8n (Self-Hosted)	Workflow automation server — connects GHL, LinkedIn, Zoom, email, and all agents via automated flows	All Agents	FREE (Community Edition — open source)
VPS Hosting	Cloud VPS Server	Dedicated virtual server to host n8n self-hosted instance — DigitalOcean / Vultr / Hetzner	n8n hosting	~\$20–40/month (2 vCPU, 4GB RAM)
Analytics & BI	Revenue Dashboard	Unified reporting across all channels — registrations, calls, pipeline, revenue, attribution	Agent 6	Built inside GHL + n8n data flows

** LinkedIn Ads budget is client-funded and billed directly to the client's ad account. n8n Community Edition is free and open-source — VPS cost is the only hosting expense (~\$20–40/month). BrndGuru manages all setup, configuration, and optimization.*

IMPLEMENTATION TIMELINE

Phase	Month	Agents Delivered	Focus
Phase 1	Month 1	Agent 1 + Agent 2 + Agent 6	Core funnel, paid traffic engine & full revenue dashboard live from day one
Phase 2	Month 2	Agent 3 + Agent 4	Authority content layer + LinkedIn relationship activation & AI reply system
Phase 3	Month 3	Agent 5	Full email nurture, intent scoring & reactivation engine

Strategic Principle: Perfect the core conversion path first — Traffic → Webinar → Call → Close. Then scale everything.

SUCCESS METRICS & KPIs

Agent	KPI	Target
1 — Webinar Funnel	Show-up rate	40%+
1 — Webinar Funnel	Calls booked per webinar	3–5+
2 — Paid Acquisition	Cost per registrant	<\$15
2 — Paid Acquisition	Cost per qualified call booking	<\$150
3 — LinkedIn Content	Engagement rate	3–5%+
3 — LinkedIn Content	Webinar sign-ups from organic	10+/cycle
4 — LinkedIn Relationship	Connection acceptance rate	25–40%
4 — LinkedIn Relationship	Calls booked from DMs/month	5–10+
5 — Email Engine	Open rate	30–45%
5 — Email Engine	Calls booked from nurture sequences	10+/month
6 — Dashboard	Full pipeline visibility	Weekly

INVESTMENT & PRICING

Monthly Agency Fee

Item	Monthly Cost
Service Management Fee	\$800
AI Automation (Claude)	\$100
Total Agency Fee	\$900/month

Payment Schedule

Milestone	Amount	Due
Month 1 Kickoff (50%)	\$450	Before work begins
Month 1 Completion (50%)	\$450	Upon Agent 1 + 2 live
Month 2 Ongoing	\$900	Month 2 start
Month 3 Ongoing	\$900	Month 3 start

Tool Costs — Variable (Billed Directly to Client)

BrndGuru does not mark up tool costs. You pay each provider directly at their published rates.

Tool / Platform	Purpose	Est. Monthly Cost
GoHighLevel (GHL)	CRM, funnels, landing pages, pipeline mgmt	\$97 (already subscribed)
GHL Email	Email delivery, sequences & automation	Included in GHL
Zoom Webinars	Live webinar hosting & replay delivery	Existing subscription
LinkedIn (Organic)	Content scheduling, pages, newsletters	No extra cost
LinkedIn Campaign Mgr	Paid ads, retargeting & lookalikes	\$500–\$1,500 (ad spend)
HeyReach	LinkedIn connection & outreach automation	~\$39 (with coupon)
n8n (Self-Hosted)	Workflow automation engine (Community Ed.)	FREE (open source)
VPS Hosting	Server to host n8n (DigitalOcean/Vultr)	~\$20–40/month

Total Monthly Investment Summary

Category	Range
----------	-------

Agency Fee (services + AI automation)	\$900
Tools & Platforms (excl. ads)	GHL \$97 + HeyReach \$39 + VPS \$20–40 = ~\$156–176
LinkedIn Ads Budget	\$500–\$1,500
Total Monthly Estimate	~\$1,556–\$2,576/month

**LinkedIn ad spend is the primary variable cost. Recommended starting budget: \$500/month. Scale as cost-per-registrant improves.*

ROI & LIFETIME VALUE

This is not a campaign spend. It is a permanent revenue infrastructure — built once, running forever. The system compounds over time: the funnel fills faster, the audience grows warmer, and each additional deal closed carries zero incremental cost. **One ISO certification deal closed (\$22K avg) covers 11 months of the entire system.**

MONTHLY SYSTEM COST

~\$2,000

Agency + tools + ads (avg)

AVG ISO DEAL VALUE

\$22,000

Per certification package closed

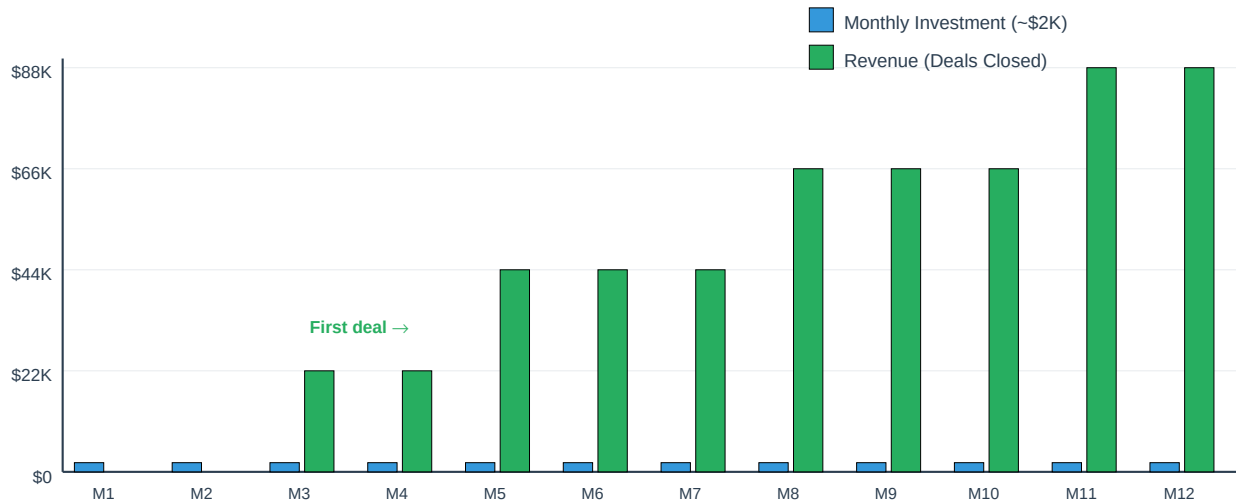

ROI PER DEAL CLOSED

11x

1 deal = 11 months fully covered

12-Month Revenue Projection (Conservative Estimate)

Assumes setup in Months 1–2, first deal in Month 3, scaling to 4 deals/month by Month 10+.

Long-Term ROI Projection

The system cost stays flat. Revenue scales as the audience, funnel, and trust compound month over month.

Timeframe	Deals Closed (Est.)	Revenue Generated	System Cost	Net ROI Multiple
-----------	---------------------	-------------------	-------------	------------------

Month 1–2	0 (Setup)	\$0	~\$4,000	—
Month 3–6	5–6 deals	~\$110–132K	~\$8,000	~14–17x
Month 7–12	10–12 deals	~\$220–264K	~\$12,000	~18–22x
Full Year 1	15–18 deals	~\$330–396K	~\$24,000	~14–17x
Year 2	28–36 deals	~\$616–792K	~\$24,000	~26–33x
Year 3	40–52 deals	~\$880K–1.1M	~\$24,000	~37–46x

This system is a permanent asset. Unlike ads or one-off campaigns, every agent built here continues running indefinitely. The webinar funnel keeps filling. The email engine keeps nurturing. The dashboard keeps optimizing. At Year 3, you're running a \$1M+ revenue machine on the same \$900/month agency fee.

TERMS & CONDITIONS

1. Engagement Model	Monthly retainer. Either party may terminate with 14 days written notice after Month 1 completion.
2. Payment Terms	50% upfront before work begins each phase; 50% on milestone completion.
3. Revisions	Up to 2 rounds of revisions per deliverable included.
4. Tool Costs	All third-party platform costs are the client's responsibility, billed directly by providers.
5. Ad Budget	LinkedIn ad spend is managed by BrndGuru but funded from the client's ad account. Budget decisions remain with the client.
6. Confidentiality	All client credentials, data, and business information handled with full confidentiality.
7. Intellectual Property	All work product is owned by the client upon full payment.
8. Timeline	Deliverable timelines depend on timely receipt of required assets and access from the client.

NEXT STEPS

01	Review & approve this proposal
02	Sign the agreement below
03	Submit Month 1 payment — \$450 (50% upfront)
04	Complete onboarding checklist (access + assets)
