

AGENT 6 — CONTROL TOWER

Revenue Control Tower Dashboard

Every Agent. Every Metric. One Live View.

WHAT THIS AGENT DOES:

Pulls data from all 6 agents into one live dashboard —
so Randy sees exactly what's working, what's not,
and where to scale. Updates automatically, 24/7.

WHAT IS AGENT 6?

Agent 6 is your command center.

Every other agent — webinar funnel, paid ads, content, outreach, email nurture — generates data. Agent 6 collects all of it, formats it, and displays it in one live dashboard so Randy can see the health of his entire revenue system at a glance. No switching between 6 platforms. No manual number-pulling. No guessing.

HOW IT WORKS — DATA FLOW

Total additional cost for Agent 6: \$0 — built on GHL (already paid) + Google Looker Studio (free) + n8n (already on VPS).

COMMAND CENTER — ALL 6 AGENTS AT A GLANCE

■ COMING SOON — Data will populate automatically once agents are live

This is the first screen Randy sees when he opens his dashboard URL. Every agent's health status + top 3 KPIs — all in one view. Grayed sections below will populate with live data once each agent goes live.

BUYING INTENT DASHBOARD — WHO IS READY TO BUY?

■ COMING SOON — Data will populate automatically once agents are live

The most powerful panel in the dashboard. n8n tracks every behavioral signal across all agents — email opens, webinar attendance, link clicks, page visits, DM replies — and assigns each lead an Intent Score from 0–100. Randy sees exactly who is ready to buy right now, without lifting a finger.

■ HOT Score 80–100 Ready to buy — call today	■ WARM Score 50–79 Prioritise for outreach	■ INTERESTED Score 25–49 Keep in sequence	■ COLD Score 0–24 Long-term nurture
---	---	--	--

Each tier count updates automatically as leads cross scoring thresholds throughout the day.

HOW INTENT SCORE IS CALCULATED

Clicked Calendly link (didn't book)	+50 pts	n8n tracks automatically
Booked call + cancelled	+45 pts	n8n tracks automatically
Attended live webinar	+40 pts	n8n tracks automatically
Replied to DM / email	+35 pts	n8n tracks automatically
Clicked call-to-action in email	+30 pts	n8n tracks automatically
Visited landing page 2+ times	+25 pts	n8n tracks automatically
Opened 3+ emails in 7 days	+20 pts	n8n tracks automatically
Watched webinar replay	+20 pts	n8n tracks automatically
Clicked any email link	+15 pts	n8n tracks automatically
Opened single email	+10 pts	n8n tracks automatically

INTENT DASHBOARD — METRIC DETAIL

Hot Leads (80–100)	Leads with score 80+ — n8n alerts BrndGuru + Randy via email/Slack the moment a lead crosses this threshold	— coming soon —
Warm Leads (50–79)	High-priority nurture targets — these leads need one more touchpoint to push them to Hot	— coming soon —
Interested (25–49)	Engaged but not urgent — keep in email + LinkedIn sequence, monitor for score jumps	— coming soon —
Cold Leads (0–24)	Low engagement — in long-term nurture sequence, retargeted via Agent 2 LinkedIn ads	— coming soon —

Avg. Intent Score	Average score across all active leads — rising average = messaging is working	— coming soon —
Score Velocity	How fast leads are moving up the scoring tiers week over week — measures funnel momentum	— coming soon —
Top Signal This Week	The intent signal that fired most frequently — tells you which touchpoint is driving the most engagement	— coming soon —
Intent → Booked Rate	% of Hot leads (80+) who go on to book a Calendly call — target: 60%+	— coming soon —
Avg. Days to Intent	Average days from registration to reaching score 80+ — shorter = better funnel efficiency	— coming soon —
Re-Engaged This Week	Cold leads who were inactive and suddenly triggered an intent signal — flag for personal outreach	— coming soon —
Top 5 Hottest Leads	Ranked list of the 5 contacts with the highest intent scores right now — their name, score, and last action	— coming soon —

HOW IT WORKS

Every time a lead opens an email, clicks a link, visits the landing page, attends the webinar, or replies to a DM — n8n detects that signal via GHL webhooks, LinkedIn API, or Zoom API, adds the points to a custom field in GHL, and updates the Intent Score. When a lead crosses 80 points, n8n sends an instant alert. The 'Top 5 Hottest Leads' list refreshes every hour. Randy always knows exactly who to call — without checking anything manually.
